OUR
VISION

**To be the leading consultancy partnership in Tanzania,
known for transforming businesses through expert advisory and audit services.**

At Pentech, our aspirational goal transcends mere success; we envision a transformative journey that positions us as the unrivaled consultancy partnership not just in Tanzania, but across the global landscape. Our vision hinges on an unwavering commitment to catalyzing profound change within businesses, setting new paradigms through a blend of unparalleled expertise, innovative advisory services, and rigorous audit methodologies. We strive not just to lead but to redefine the very essence of consultancy, becoming synonymous with excellence and pioneering strategies that propel businesses toward sustainable growth and success. We envision a future where Pentech stands as the beacon of transformation, shaping industries and empowering organizations to navigate complexities with confidence and precision. Our commitment to being at the forefront of this evolutionary process is unwavering, as we continuously refine our approaches, embracing cutting-edge technologies and methodologies, thus cementing our reputation as the undisputed trailblazers in the consultancy realm.

OUR
MISSION

- At Pentech, our mission resonates with a profound commitment to empower businesses by elevating their productivity to unprecedented levels. We recognize that in today's dynamic and competitive landscape, efficiency and security are paramount. Thus, our dedication revolves around offering not just IT solutions, but comprehensive strategies that are tailored to the unique needs and aspirations of each client we serve. Our mission extends beyond conventional service delivery; it embodies a holistic approach aimed at revolutionizing the operational landscapes of businesses across diverse industries. We endeavor to be the catalysts of transformation, leveraging cutting-edge technologies, innovative methodologies, and a deep understanding of business dynamics to craft solutions that not only optimize productivity but also fortify the security infrastructure of our clients. Our commitment to excellence manifests in our relentless pursuit of staying abreast of emerging trends, ensuring that our clients benefit from the most advanced and secure IT solutions available. At Pentech, we consider it our duty to not just meet but exceed expectations, fostering long-term partnerships that stand as testaments to our unwavering dedication to the success and security of the businesses we serve

OUR
SERVICES

We offer an extensive array of consultancy services, including:

- **Financial Services Consultancy**: Guiding financial strategy, compliance, and management to optimize fiscal health and market competitiveness.

- **Computer and IT Advisory:** Delivering specialized advice on computer issues, IT infrastructure, cybersecurity, and technology-driven business transformation.

- **Management Consultancy**: Enhancing organizational performance through strategic management advice, process improvement, and change management.

- **Marketing and Product Development**: Crafting innovative marketing strategies and product development plans to drive growth and customer engagement.

- **Forensic Consultancy**: Providing meticulous forensic services to address and resolve complex issues, ensuring legal and ethical compliance.

- **Data and Analytics**: Turning data into actionable insights with advanced analytics to drive decision-making and business intelligence.

- **AML/CTF Compliance:** Conducting compliance reviews and advise in the field of Anti-Money Laundering and Terrorism Financing.

- **Risk Management Training:** Conducting tailor-made Risk Management trainings to meet specific audience needs.

- **Outsourced Internal Audit Function: P**artnering with external experts or firms specializing in internal audit services to conduct a comprehensive evaluation of the organization's internal controls, risk assessments, and governance structures.

MEET
OUR TEAM

George Felix

Msc. Information Systems Management (UDSM)
BSc. Computer Engineering and IT (UDSM)
Certified Information Systems Auditor, CISA
Information Systems Security Professional, CISSP

George brings over eight years of rich experience in Systems Audits and Risk Management, honed through diverse roles in both the public and private sectors. His expertise encompasses a wide range of areas including risk-based Internal Audits, Project Audits, Due Diligence assignments, AML/CTF Compliance and reviews of General IT and Application Controls. He has a proven track record in Business Process reviews, Data Analytics, Risk Management Trainings and IT Project Management and Assurance.

George is well-versed in industry standards such as the COBIT Framework, ISO/IEC 27000-series, IPPF for Internal Audit, and Project Management Standards. His contributions in these areas have consistently led to enhanced operational efficiencies and strengthened compliance in the organizations he has worked with.

Rosevita Majani
